

JUNIOR DESIGNERS VS SENIOR DESIGNERS

THE REAL DIFFERENCE

It's not tools.
Not speed.
Not experience.

It's how they think when
no one's watching.

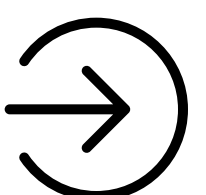

HOW THEY HANDLE SILENCE

Junior

Thinks silence means approval.

Senior

Uses silence to question
what's missing.

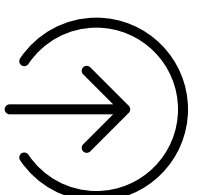

THEIR FIRST MOVE IN A NEW PROJECT

Junior

Opens Figma.

Senior

Opens Notes.

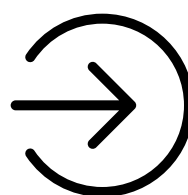

HOW THEY SEE CLIENTS

Junior

They keep changing the brief.

Senior

They're still figuring out what
they really need.

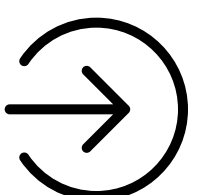

FEEDBACK PHASE

Junior

Fixes what the client points at.

Senior

Fixes what caused the client
to point.

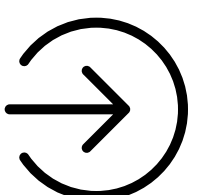

SKILL STACK

Junior

Design + Tools.

Senior

Design + Business + Psychology +
Communication.

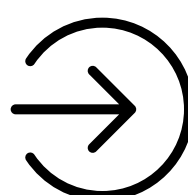

WHAT KEEPS THEM AWAKE AT NIGHT

Junior

Is my design good enough?

Senior

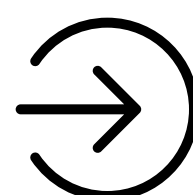

Did the design solve the real
problem?

WHAT YOU DON'T SEE

No one tells you this:
Seniors still feel doubt.

They've just made peace with it
and keep going.

IF you are a Junior Designer
